Craig, the Vice President of Apple Scientific, Inc., has been ballooning for 16 years, logging over 333 hours of air time. He is also past President of NOBPA. His balloon was named after the music composed by Ravel, which was featured in the movie “10” and can be identified by its red and black spiral design. This is Craig's 11th year at the Thurston Classic. He claims each flight is “special” and especially enjoys sharing the experience with others.

Pilot: CRAIG LUCAS
Chagrin Falls, OH
