

“NECESSITY”

John, director of Epidemiology and Health Services research at Milliman in Southern California, has been ballooning for 20 years and has flown 792 hours. He is this year's special attraction with his cluster of balloons... but figures a hot air balloon is a necessity...hence the name of his hot air balloon "Necessity"! When not flying his cluster of balloons John can be spotted in his yellow balloon sporting red, white and blue stairstep spirals. Welcome to our event John!

Pilot: JOHN NINOMIYA
Solana Beach, CA
